ABOUT THE AWARD

DIABP was established under the directives of late Sheikh Maktoum Bin Rashid Al Maktoum, during the United Nations International Conference that convened in Dubai between 19 – 22 November, 1995 with 914 participants from 95 countries, to recognize the best practices with positive impact on improving the living environment. H.H. Sheikh Mohammed Bin Rashid Al Maktoum, Vice President and Prime Minister of the U.A.E. and the Ruler of Dubai and H.H. Sheikh Hamdan Bin Rashid Al Maktoum, Deputy Ruler of Dubai, Minister of Finance and Industry and Chairman of Dubai Municipality has continued to support this Award.

The Award reflects the policy and commitment of Dubai Government and the United Arab Emirates towards sustainable development of the human settlements and protection of the environment on the basis of mutual international cooperation.

DUBAI DECLARATION:

One of the most important outcomes of the above mentioned conference was the adoption of Dubai Declaration, which has established, guiding principles and distinctive criteria to recognize the best practices worthy of recognition and propagation.

Subsequently, Dubai Declaration was adopted by the United Nations Conference on Human Settlements (Habitat II), and also by the World Association of Cities and Local Authorities that were held in Istanbul, Turkey in June 1996.

INTRODUCTION

Best Practices are outstanding contributions to improve the living environment. They are defined by the United Nations and the International Community at large as successful initiatives which:

- Have a demonstrable and tangible impact on improving people's quality of life;
- Are the result of effective partnerships between the public, private and civic sectors of society;
- Are socially, culturally, economically and environmentally sustainable.

Best Practices are promoted and used by the United Nations and the International Community as a means of:

- Improving public policy based on what works;
- Raising awareness of decision-makers at all levels and of the public of potential solutions to common social, economic and environmental problems;
- Sharing and transferring knowledge, expertise and experience through networking and peer-to-peer learning.

The original call for Best Practices was launched in 1996 during the Second United Nations Conference on Human Settlements (Habitat II) as a means of identifying what works in improving living conditions on a sustainable basis. An International Conference on Best Practices was held in Dubai in November 1995. The Conference adopted the Dubai Declaration and established the Dubai International Award for Best Practices to Improve the Living Environment in 1995.

As a result of seven successive Award cycles in 1996, 1998, 2000, 2002, 2004, 2006, 2008 and 2010, currently there are approximately 4,500 Good and Best Practices from 140 countries featured on the Best Practices database. At each cycle, an independent committee of technical experts (Technical Advisory Committee) identifies Good and Best Practices and prepares a shortlist. An International Jury selects the award winners from the shortlist.

Starting in 2006, the Dubai International Award consists of 12 Awards, the traditional 10 for Best Practices, and 2 for Best Practices Transfers

Dubai Municipality will present the **Ninth** Dubai International Award to a new group of 12 Best Practices Laureates in **October 2012**.

We look forward to receiving your submission.

THE DUBAI INTERNATIONAL AWARD FOR BEST PRACTICES TO IMPROVE THE LIVING ENVIRONMENT (DIABP)

1. Purpose:

To recognise and enhance awareness of outstanding and sustainable achievements in improving the living environment as per the basic criteria established by the Second United Nations Conference on Human Settlements (Habitat II) and the Dubai Declaration.

- ix. Improvement of inter-agency co-ordination.

5.2 **Partnership:** Best Practices should be based on a partnership between at least two of the actors mentioned in item 4.

5.3 **Sustainability:** Best practices should result in lasting changes in at least one of the areas listed below:

- (i) Legislation, regulatory frameworks, by-laws or standards formally recognising the issues and problems that have been addressed;
- (ii) Social policies and/or sectoral strategies at the (sub) national level that have a potential for replication elsewhere;
- (iii) Institutional frameworks and decision-making processes that assign clear roles and responsibilities to various levels and groups of actors, such as central and local governmental organisations and community-based organisations;
- (iv) Efficient, transparent and accountable management systems that make more effective use of human, technical, financial and natural resources.

Additional Criteria and Considerations:

The following criteria will be used by the Technical Advisory Committee and Jury for differentiating between good, best and award winning practices.

5.4 **Leadership & Community Empowerment:**

- (i) Leadership in inspiring action and change, including change in public policy;
- (ii) Empowerment of people, neighbourhoods and communities and incorporation of their contributions;
- (iii) Acceptance of and responsiveness to social and cultural diversity;
- (iv) Potential for transferability, adaptability and replicability;
- (v) Appropriateness to local conditions and levels of developments.

5.5 **Gender Equality and social inclusion:**

Initiatives which: accept and respond to social and cultural diversity; promote social equality and equity, for example on the basis of income, gender, age and physical/mental condition; and recognise and value different abilities.

5.6 **Innovation within local context and transferability:**

- (i) How others have learnt or benefited from the initiative.
- (ii) Means used for sharing or transferring knowledge, expertise and lessons learnt.

5.7 **Transfers:**

- (i) Tangible impact resulting from the transfer of one or more of the following: ideas, skills, processes, knowledge or expertise, and technology;
- (ii) Changes in policies or practices.
- (iii) Sustainability of the transfer as part of a continuous process of learning and change.

6. **Submission Process**

6.1 Best Practices shall be submitted in accordance with the reporting format. (Please see Annex I).

6.2 The reporting format is available on the Internet and can be downloaded from www.dubaiaward.ae and <http://www.unhabitat.org> in word format, or upon request - Email: bestpractices@unhabitat.org. Hard copy submissions will also be accepted, where electronic versions are not possible.

6.3 *Submissions shall be made in English.* Submissions in Arabic, French and Spanish **should be accompanied by an English translation. Submitters are strongly advised not to use machine translation.**

6.4 Submitters are encouraged to include the following supporting materials (optional):

- (a) Articles appearing in newspapers, professional journals, newsletters or other publications;
- (b) Digital standard format videos less than 10 minutes in length;
- (c) Photographs and/or other graphic material;
- (d) Brochures or other promotional material.

6.5 Submissions shall be sent to either UN-HABITAT or Dubai Municipality, or any recognised Best Practice partner institutions (please see Annex 3). Submissions should be done on-line, via Email, or mail. Dubai Municipality or UN-HABITAT may forward any submission for review or validation to a partner institution. Those who forward their submissions directly to the partner institutions shall notify UN-HABITAT or Dubai

Municipality of their submissions and ensure that the submissions are forwarded to UN-HABITAT. Submissions reaching UN-HABITAT by 31st January 2012 may benefit from substantive feedback.

6.6 All submissions received will be acknowledged and assigned a catalogue number by UN-HABITAT for documentation (code, name of submitter, subject, etc) purposes and for eventual inclusion in the Best Practices Database. UN-HABITAT shall inform all submitters the status of their submission.

6.7 Partners may contact the submitters who shall provide effective assistance to them by reviewing the documents with the objective of ensuring their compliance with the criteria as well as the rules and regulations of the award and advise them of any further actions required. Partners shall forward the validated submissions meeting the award criteria to UN-HABITAT.

7 **Selection Process**

The deadline for submissions is 31 March 2012. Submissions received by this date will undergo the following selection process:

7.1 All submissions complying with the reporting format and meeting the basic Best Practices criteria shall be forwarded to an independent, Technical Advisory Committee (TAC) for review.

7.2 The TAC shall review all submissions and prepare a comprehensive report including:

- (a) Description of the selection process;
- (b) List of approximately 100 Best Practices;
- (c) Short list of up to 48 submissions to be forwarded to the Best Practices Jury for final selection of the Award recipients.

7.3 The Best Practices Jury shall review the short listed Best Practices to select those initiatives deserving of the Dubai International Award. The Jury may recommend less than twelve or none for the Award depending on the quality of the submissions.

All submitters will be notified of their status following the final selection by the Jury.

- Continental
- Mountain

10. **Summary**

In no more than 300 words, summarise the objectives and achievements of the initiative. Please note that the summary should be in narrative and not in point form.

11. **Key Dates**

Provide no more than five dates that are significant to the initiative and for each date describe in no more than five or six words its significance.

12. **Narrative**

Please observe the word limits specified overall, and under each headings:

In 2000 words or less, use the following headings and suggestions to describe your work.

SITUATION BEFORE THE INITIATIVE BEGAN [Approximately 50 WORDS]

Describe the situation before the initiative began. What major problems and issues needed to be addressed in the area? What approximate population size within what approximate geographic area? What social groups e.g. women, youth, ethnic minorities, were affected and in what ways?

ESTABLISHMENT OF PRIORITIES [Approximately 100 WORDS]

List the priorities of the initiative. How was prioritization done and what groups were involved? Please specify leadership and gender specific roles where appropriate.

FORMULATION OF OBJECTIVES AND STRATEGIES [Approximately 100 WORDS]

Provide a summary of the main objectives and strategies of the initiative, how they were established and by whom. Please specify any gender specific objectives and strategies. Describe policies and strategies adopted for city-wide development, where applicable.

MOBILISATION OF RESOURCES [Approximately 200 WORDS]

Describe how financial, technical and human resources were mobilized and where they came from including any form of bilateral and/or multilateral assistance. Specify key actors (including community/women's groups), organisations or institutions that were/are responsible and accountable for managing the resources.

PROCESS [Approximately 400 WORDS]

Describe the problems faced in implementing the initiative, how were they overcome, and the problems that remain to be solved. Describe also how people (men and women), communities, organisations and institutions participated in the initiative. Describe how people, communities and organisations participated in decision making processes and what their inputs were, with regard to basic needs, civil rights and/or policies. Provide a summary of tools, methods, and/or benchmarks that were used for assessing performance, who is using them and how often. For example: report cards, joint assessments etc. Weekly, monthly etc.

RESULTS ACHIEVED [Approximately 250 WORDS]

Describe to what extent the objectives listed above were realised, how the impact was measured, quantitatively and qualitatively and who benefited and how. Describe how the initiative has resulted in, for example:

- Actual improvement achieved in people's living conditions including women and children;
- Better co-ordination and integration between various actors, organisations or institutions;
- Changes in local, national or regional social, economic and environmental policies and strategies;
- Improved institutional capacity at the national, sub-national or local levels;
- Changes to local or national decision-making, including the institutionalisation of partnerships;
- Recognising and addressing specific opportunities and constraints;
- Changes in the use and allocation of human, technical and financial resources at the local/national level;
- Changes in people's attitudes, behaviour and in the respective roles of women and men.

SUSTAINABILITY [Approximately 300 WORDS]

Describe how the integration of the social, economic, environmental, institutional and cultural elements of sustainability was achieved, particularly with regards to:

- Financial: The use and leveraging of resources, including cost recovery, indicating how loans, if any, are being paid back and their terms and conditions;
- Social and Economic: Gender equity, equality and social inclusion, economic and social mobility;
- Cultural: Respect for and consideration of attitudes, behaviour patterns and heritage;
- Environmental: Reducing dependence on non-renewable resources (air, water, land, energy, etc.), and changing production and consumption patterns and technology. E.g. Composting, recycling etc.
- Institutional: Legislation, regulatory frameworks, by-laws or standards formally addressing the issues and problems that have been dealt with by a practice; Social policies and/or sectoral strategies at the (sub) national level that have a potential for replication elsewhere; Institutional frameworks and decision-making processes that assign clear roles and responsibilities to various levels and groups of actors, such as central and local governmental organisations and community-based organisations; Efficient, transparent

and accountable management systems that make more effective use of human, technical, financial and natural resources.

LESSONS LEARNED [Approximately 300 WORDS]

Describe the three or four most important lessons learned and how these lessons have been or are being incorporated in your initiative and/or other initiatives. Describe any lessons learned from other initiatives that were incorporated into your initiative. Describe how these lessons learned have been or are being taken into consideration in determining ongoing or future policies, strategies and action plans for example, what would you do differently or avoid doing in scaling up or transferring your experience?)

TRANSFERS [Approximately 400 WORDS]

- a) **Transferability:** In this section, please describe how your initiative has benefited from the experience or expertise of other practices. Describe how your initiative could be replicated. If the process of replication has commenced, please indicate when and by whom.
- b) **Transferred Best Practice:** **This section applies only to those who are submitting their practice specifically for one of the two awards earmarked for best practice transfers.**

A Best Practice transfer is defined as a process whereby two or more parties engage in a mutual and structured exchange to learn from one another in view of improving processes, skills, knowledge, expertise or technology for the purpose of improving the living environment. Transfers can occur within a country or between countries. They include institutionalised transfers such as City-to-City Cooperation, or may take place spontaneously. In applying for this special category of the Dubai International Awards, applicants are requested to provide the following information:

- a) Describe how the transfer was initiated and by whom;
- b) Describe the purpose of the transfer and what the transfer involved (staff exchanges, study tours, ad hoc technical assistance, etc.) including the involvement and facilitation of any third parties such as a training or capacity-building institution or a governmental, bilateral or multilateral sponsor;
- c) Describe the resource and financial implications involved in the transfer including staff time, travel, transfer of funds, software or technology, etc;
- d) Describe any adaptations required in for example, tools, methods or technology, in response to differences in social, economic or cultural aspects between the original practice and the recipients of the transfer;
- e) Describe the results or impact of the transfer in, for example, changes in policy, management tools and methods, lasting change to the living environment;
- f) Describe lessons learned from the transfer and what you would do differently in the event of future transfers.

RELATED POLICY/IES OR LEGISLATION [Approximately 200 WORDS]

Has this practice been supported by a municipal, regional or national public policy or legislation? If so, please describe briefly. Similarly, have any policy changes or new laws been enacted as a result of this practice? If so, please describe briefly. Include information on laws, regulatory frameworks, by-laws or standards and on accepted decision-making processes, and management systems.

13. **References**

Using the format below, please identify any articles appearing in professional or other publications (including newspapers), focusing on the Best Practice. List no more than 10 articles or publications starting with the most recent. Please follow the sequence given below.

Title of Article: Source (include author, publication title, volume/number, date, and page number(s):

15. **Supporting Materials**

You may wish to provide us with supporting materials of your initiative including: Professional photographs, videos cassettes, CD-Rom, video CD, DVD and printing material depicting the situation before, during and after the initiative was implemented. Best Practices and Local Leadership Programme

The Best Practices and Local Leadership Programme (BLP) is a global network of training and leadership development organisations dedicated to improving living conditions of people. It does so by identifying, analysing and disseminating of lessons learned from Best Practices and applying them to ongoing policy and capacity building programmes and activities. A UN-HABITAT Best Practices and Policies Coordinating Committee further ensures the mainstreaming of best practices and lessons learned and their incorporation within the normative and operational work of UN-HABITAT.

Sharing Lessons Learned from Best Practices

Through its global network of partners, Best Practices are analysed with a view to extracting lessons that others can learn from and incorporate into their own work. From this material, the BLP and its partners produce *case studies*, engage in the *transfer of practical knowledge, experience and expertise*, and *develop tools to facilitate learning and capacity building*. These tools are in continuous development and are available on the Internet at: <http://www.bestpractices.org>

The process of identifying Good and Best Practices also serves as a barometer of emerging urban trends and conditions and a means of identifying who is doing what to implement commitments made under Agenda 21 and the Habitat Agenda. Every two years, Habitat compiles an analysis of current trends and conditions in the *State of the World's Cities* report series and distributes the results to key decision-makers and civic leaders at all levels.

Good Urban Policies and Legislation

The Commission on Human Settlements, at its 17th (1999) and 18th sessions (2001), decided that the documentation of best practices should be expanded to include examples of good policies and legislation. The decision was further endorsed by the “*Declaration on Cities and Other Human Settlements in the New Millennium*”, adopted by the General Assembly at its special session (Istanbul+5) in June 2001. Paragraph 63 of the declaration states: “A further goal is to translate best practices into policies and permit their replication. In this respect, the international community should ensure the effective formatting and dissemination of proven best practices and policies.”

Pursuant to this mandate UN-HABITAT, through the Best Practices and Local Leadership Programme, developed a pilot project to document a selected and representative set of policies and laws. Studies were done in Brazil, Burkina Faso, Colombia, Mexico, Peru, Philippines, Senegal, Tanzania and Uganda. An Expert Group Meeting (EGM) was held in Nairobi in July 2004, to review the experience and methodology. More information on www.bestpractices.org
